- 3.11 Admin Setup (Users, County Configuration, Audit Logs)

Part 4 — Getting Help & Closing Notes

- 4.1 Help Assistant
- 4.2 Data, Privacy & Security Guidelines
- 4.3 Glossary of Terms

Preface

This guide walks every module of the Homa Bay County Human Resources Information System (HRIS), organized by the role that typically uses it — starting with sign-in, moving through Employee Self-Service, and then through Human Resource, Records, Performance Appraisal, and Public Service Board administration.

The Homa Bay County HRIS is the County Government's single platform for staff self-service and for Human Resource, Records, Training, Performance, and the Public Service Board to run the establishment. It is a county government human resource system — covering leave, attendance, establishment, and the Public Service Board — and is not a private-sector system.

PART 1

Getting Into the System

1.1 Signing In

<https://homabay.hrmis.craftcollect.africa/biller/#/>

Every session begins at the sign-in screen, which shows the county crest alongside the login form.

- **Username** — enter your staff number, not an email address.
- **Password** — enter your password. It is never displayed or spoken aloud on any recording or shared screen.
- **Remember me** — tick this only on a county computer that you personally control. Do not tick it on a shared or public device.
- **Forgot password** — use this link if you are locked out; it starts a reset flow.
- **Sign In** — submits your credentials.
- **One-Time Code (OTP)** — some accounts require a one-time code after signing in.
- **Change password** — on your very first login you may be asked to set a new password before continuing.
- **Need help** — sits below the Sign In button and opens the Help Assistant.

Figure 1.1 — HRIS sign-in screen

NOTE: Once signed in, you land on a dashboard that matches your assigned role — Employee, Manager, HR, Records, Compliance, Public Service, County Secretary, PAS, or Training.

1.2 Your Dashboard (Role Home)

Routes vary by role — e.g. `/employee-dashboard`

The system shows a different “home” screen depending on the role attached to your account. All roles share the same county tenant; only the menu changes.

Employee Dashboard

Self-service home for every staff member: leaves, attendance, documents, appraisals, training, and announcements.

Manager Dashboard

For supervisors: leave to approve, timesheets, confirming team-member claims, and appraisals for their direct reports.

HR Dashboard

Organization-wide view of people, leave, and recruitment.

Records Dashboard

The file registry — the digital personnel-file system.

Compliance Dashboard

Wealth declarations and statutory compliance reporting.

Public Service Dashboard

Vacancies, shortlisting, interviews, appointments, and Board decisions.

County Secretary Dashboard

Correspondences and cabinet papers.

PAS Dashboard

The Performance Appraisal System — cycles, forms, and reviews.

Training Dashboard

Courses, applications, and the skills audit.

Figure 1.2 — Role-based dashboard view

NOTE: If a menu item described anywhere in this guide is missing from your account, your role simply does not include it — this is expected and by design.

PART 2

Employee Self-Service (ESS)

Every member of staff, regardless of role, has access to the Self-Service side of the system. This is where you manage your own profile, leave, attendance, pay information, documents, and career-related modules.

2.1 My Profile & My Position

[#/employee-profile](#) · [#/my-position-info](#)

These two screens describe who you are and where you sit in the organization.

- **My Profile** — your bio-data, contact details, next of kin, and any fields HR allows you to edit yourself. Sensitive identity fields (national ID, personal number, designation) are usually view-only.
- **My Position Info** — shows your job title, grade, department, station, and reporting line — how you fit into the county's organizational structure.
- **Confirm My Team** — for supervisors only; used to confirm claims made by officers under them.

The screenshot displays the 'Homabay County HR System' interface. On the left is a dark blue sidebar with the system logo and a user profile for 'Benson Kinyanjui, Director HR'. Below this is a list of 'EMPLOYEE SELF-SERVICE' options: My Dashboard, My Profile (highlighted), My Announcements, My Attendance, My Events, My Leave, My Meetings, and My Performance. The main content area is white and shows the profile of 'Benson Kinyanjui' with ID 'EMP7000' and status 'Active'. It lists contact details: 'Executive Office of the Governor', email 'k*****@g*****.com', phone '*****05', and a date '*****21'. Below this is a section for 'Update contact details' with input fields for 'Email' (name@example.com) and 'Phone' (e.g. 07XX XXX XXX). At the bottom, there are tabs for 'Personal Info', 'Government IDs' (0), 'Documents' (0), 'Emergency Contacts' (1), and 'Next of Kin' (0).

Figure 2.1 — Employee profile and position information

NOTE: Only update fields that the form actually allows — changes to protected fields must go through HR.

2.2 Leave

[#/employee-leave-apply](#) · [-history](#) · [-balance](#) · [-calendar](#) · [unused-leave](#) · [off-day-apply](#) · [off-day-history](#)

Leave is the most frequently used part of self-service, covering annual, sick, maternity, paternity, and any additional leave types configured by the county.

- **Leave Balance** — shows how many days you have remaining, by leave type.
- **Apply for Leave** — select leave type, start date, end date, number of days, a relief officer (if required), a reason, and an attachment (if policy requires one), then submit. The request routes to your supervisor and then HR, depending on setup.
- **Leave History** — every request you have made and its current status: pending, approved, rejected, or cancelled.
- **Leave Calendar** — shows who else in your unit is away, so requests don't clash.
- **Unused Leave** — used to declare or commute leftover leave days when the year or policy requires it.
- **Off-Day Apply / History** — for off-duty or compressed rest days; this is separate from annual leave and is approved by your supervisor.

Figure 2.2 — Leave application and balance

NOTE: Do not submit two leave applications for the same dates.

2.3 Attendance

[#/employee-attendance-clock](#) · [-records](#) · [-summary](#)

Attendance tracks your time at the duty station and feeds into timesheets and, where configured.

- **Attendance Clock** — clock in and clock out at your duty station.
- **Remote Attendance Approvals** — if the county allows remote or mobile punches, these are flagged for a supervisor to review rather than accepted automatically.
- **Attendance Records** — your personal punch list: date, time, and status.
- **Attendance Summary** — total hours or days recorded for the month.
- **Shift Management** — rosters are managed by HR, not edited by individual officers.

Figure 2.3 — Attendance clock and records

NOTE: If you miss a punch, do not enter an invented time — raise it through your department's official correction process.

2.4 Documents, Declarations & Announcements

Documents · COI · Announcements · Meetings · Warnings · Polls

This group covers records HR has placed on your file, items you upload yourself, and county-wide communication.

- **Documents (view)** — letters and files HR has placed on your record.
- **Documents (upload)** — files you attach yourself, such as certificates or medical notes.
- **Conflict of Interest Declaration** — a compliance form to complete when HR opens the declaration window.
- **Announcements** — official county HR news and updates.
- **My Meetings / My Events** — invitations you are expected to honour.
- **My Warnings** — the disciplinary trail visible to you; you may read it but not delete it.
- **My Polls** — staff surveys you can respond to.

Figure 2.4 — Documents, declarations and announcements

2.5 Appraisals, Skills, Training, Redeployment, Retirement & Clearance

[#/employee-self-assessment](#) · [skills-audit](#) · [my-training](#) · [my-redeployment](#) · [my-retirement](#) · [my-clearance-status](#)

This is the career-development side of self-service, covering performance, capability, and eventual exit from service.

- **My Appraisals / Self-Assessment** — part of the Performance Appraisal System (PAS): you score yourself against the current cycle, your supervisor reviews it, and HR calibrates the results.
- **My Skills Audit** — declare your competencies so the county can identify skill gaps.
- **My Training** — courses you have applied for or been nominated to attend.
- **My Redeployment** — shows any planned movement between departments that involves you.
- **My Retirement** — your retirement path, once you are within the relevant window.
- **My Clearance Status** — the exit-clearance checklist (assets, imprest, files) that must be completed before final dues are paid.

Figure 2.5a — Appraisals and skills audit

Figure 2.5b — Training, redeployment and clearance

NOTE: If your account does not show an HR menu, your self-service journey ends here, apart from any reports you are permitted to view.

PART 3

HR & Administration

The modules below are used by HR, Records, PAS, Public Service Board, and County Secretary accounts. Self-service and administrator screens are kept separate by role, not mixed into one menu — you will only see the sections your account is authorized for.

3.1 People & Establishment

employee-register · department-management · org-structure · position-management · staff-establishment · attrition · pwd-management

This is the master record of who works for the county and which posts exist.

- **Employee Register** — the master staff list: create, edit, and view officer details. Includes bulk upload for mass onboarding (treat as high-risk) and an archive of exited employees.
- **Approval Queues** — new records, verification, approved, rejected, and edit.
- **Department Management / Org Structure** — the organizational tree of the county.
- **Position Management / Position Register** — the authorized posts themselves.
- **Category & Role Management** — controls which screens each role can open.
- **Staff Establishment** — authorized posts versus filled posts; the county's core public-service control report.

- **Attrition** — tracks staff who have left.
- **PWD Management** — disability-inclusion records.

Figure 3.1 — Employee register and establishment

3.2 Leave & Attendance Administration

attendance-leave · leave-manage · timesheet · shift-management · off-days-management · leave-types · holidays

The administrative counterpart to employee-side leave and attendance.

- **Leave Types** — the catalogue of leave categories: annual, sick, maternity, and any county-specific extras.
- **Leave Planning / Leave Manage** — HR's working queues for leave requests.
- **Unused Leave Approvals** — closes out unused leave at year end.
- **Timesheet** — the official register of hours worked.
- **Shift Management** — assigns staff rosters.
- **Off-Days Management / Off-Day Approvals** — handles rest days and off-duty requests.
- **Remote Attendance Approvals** — review point for unusual or remote punches.
- **Holidays / Holiday Categories / Calendar** — the gazette and county holiday list.

Figure 3.2 — Leave and attendance administration

3.3 Imprest, Pension & Arrears

csv-reconciliation · pension-gratuity · arrears · imprest-request

Covers pay processing, bank reconciliation, retirement money, and short-term cash advances.

- **CSV Reconciliation / Recon Upload / Recon History / View Discrepancy** - this is where ghost workers or incorrect accounts are caught.
- **Pension & Gratuity** — exit and retirement benefits.
- **Arrears & Recoveries** — handles underpayments and overpayments.
- **Last Expense** — funeral or last-expense claims, where configured.
- **Imprest** — an officer requests an advance, a supervisor or AIE holder approves it, history is tracked, and reconciliation closes out the float.

Figure 3.3 — Imprest, pension and arrears

NOTE: Finance-only accounts should be able to view reports but not make unauthorized edits.

3.4 Performance Appraisal System (PAS)

pas-cycle-setup · appraisal-cycles · manager-review-form · hr-review-form · pip-management

The full appraisal workflow, from cycle setup through to performance improvement plans.

- **Cycle Setup & KPI Templates** — HR opens an appraisal cycle and defines the KPI templates used.
- **Employee Self-Assessment** — completed by the officer.
- **Manager Review Form** — completed by the supervisor.
- **HR Appraisal View / HR Review Form** — used by HR for moderation.
- **Performance Reports / PAS Reports** — summaries for leadership.
- **PIP Management** — performance improvement plans, triggered where scores require intervention.

Figure 3.4 — Performance Appraisal System

NOTE: Appraisals are employment decisions and must be explainable — avoid rubber-stamping reviews.

3.5 Recruitment & the Public Service Board

vacancy-management · applicants · shortlisting · interviews · appointments · board-decisions

This is Public Service Board (PSB) territory — a public-service recruitment process, not a private applicant-tracking system.

- **Vacancy Management** — publishes job posts; a public vacancy link with a token lets citizens apply without logging in.

- **Applicants** — the register of everyone who has applied.
- **Shortlisting** → **Interview Management** → **Appointment Management** — the sequential recruitment pipeline.
- **Confirmation & Probation, Acting Appointment, Short-Term Employment, Employment Types** — keep the different contract categories clean and distinct.
- **Board Decisions** — the official minutes of Board decisions.
- **HR PSB Requests** — how a department formally asks the Board to act.

Figure 3.5 — Recruitment and Public Service Board

3.6 Training & Skills Audit

training-management · calendar · certifications · skills-audit · skill-gap · report

Manages courses, staff development, and the county-wide skills inventory.

- **Training Catalogue & Calendar** — lists available courses and their schedule.
- **Training Applications** — the queue of officers applying to attend.
- **Evaluations** — close the training loop after a course.
- **Certifications & Employee Skills** — recorded against each individual.
- **Attachees & Volunteers** — tracks non-establishment people the county still needs to account for.
- **Skills Audit — Inventory, Skill-Gap, Reports** — shows the county where capacity is missing, which feeds into redeployment and training nominations.

Figure 3.6a — Training catalogue and applications

Figure 3.6b — Skills audit and skill-gap reporting

3.7 Workforce Movements & Exits

hr-transfers · hr-promotions · redeployment · retirement-management · separation-fnf · employee-clearance

Covers every change to an officer's position, and the process of leaving the establishment.

- **Transfers, Promotions, Redeployment & Redeployment Plan, Re-designation** — each of these changes the establishment record.
- **Retirement Management** — handles planned exits.
- **Separation & Termination** — disciplinary or contract-based exits.
- **Separation F&F (Final & Full settlement)** — final dues: salary, leave commutation, and pension triggers.

- **Employee Clearance / Clearance Verify** — the checklist covering assets, imprest, ICT, and records; nothing is paid out until clearance is confirmed clean. Officers can track this themselves via My Clearance Status on self-service.

Figure 3.7 — Workforce movements and exits

3.8 HR Operations (Discipline, Communication, Assets, Projects)

announcements · polls-management · hr-warnings · disciplinary-hr-actions · assets · projects

The day-to-day operational tools HR uses to run communication, discipline, and county property.

- **Announcements & Polls** — broadcast HR news and gather staff feedback.
- **Warnings & Disciplinary HR Actions** — formal due-process records, not informal notes.
- **Meetings & Events (including My Events)** — scheduling and invitations.
- **Projects** — used where HR runs special programs.
- **Assets, New Asset, All Assets** — tracks county property assigned to officers; this list is checked again during clearance.

Figure 3.8 — HR operations: discipline, communication and assets

3.9 Records, Legal, Compliance & Wealth Declaration

file-registry · county-attorney-documents · wealth-declaration · compliance-unit

The official digital personnel file, legal correspondence, and ethics compliance.

- **Records Dashboard / File Registry** — the digital personnel file for every officer.
- **General Documents** — supporting files not tied to a specific process.
- **County Attorney Documents (in/out)** — legal opinions relating to HR matters.
- **HR Knowledge Base** — reference material for HR staff.
- **County Secretary Correspondences & Cabinet** — official communication and cabinet papers.
- **Compliance Unit & Repositories** — statutory compliance tracking.
- **Wealth Declaration — File, Approvals, approved** — officers file declarations; HR/Compliance approves them; reports later show who has complied.

Figure 3.9 — Records, legal, compliance and wealth declaration

3.10 Reports & Analytics

timesheet · AWOL · staff-establishment · attrition · wealth-compliance · wage-bill

The reporting layer covering attendance, establishment control, and compliance.

- **Timesheet, Leave, and AWOL (Absence Without Leave) Reports** — attendance-based reporting.
- **Daily / Monthly / Monthly-Detailed Attendance** — different levels of attendance summary.
- **Staff Establishment** — the county's core control report; the Reports hub opens here first because establishment is the public-service spine.
- **Attrition** — staff losses over time.
- **Wealth Compliance / Wealth Non-Compliant** — who has and has not filed wealth declarations.

Figure 3.10 — Reports and analytics

NOTE: Export reports for County Executive Committee (CEC) and County Assembly submissions as your county's procedure requires.

3.11 Admin Setup (Users, County Configuration, Audit Logs)

user-management · county-setup · audit-logs

The system-configuration layer, usually restricted to ICT and senior HR administrators.

- **User Management** — controls who may log in and which role they hold (Employee, Manager, HR, Records, PSB, County Secretary, and so on).
- **County Setup** — tenant-level configuration: departments, stations, leave types, and other local parameters.
- **Audit Logs** — a record of who changed what, and when. ICT and HR must be able to produce this trail on request.

NOTE: Finance-only viewers should be able to view reports but should not be given permission to edit user accounts.

PART 4

Getting Help & Closing Notes

4.1 Help Assistant

Available on the login screen and in-app where shown

If you get stuck, the Help Assistant is there to guide you through navigation.

- **The Help Assistant helps** — you find your way around the system — it cannot change your pay or approve requests on your behalf.

Figure 4.1 — Help Assistant

4.2 Data, Privacy & Security Guidelines

A few rules apply across the whole system, for every role:

- Never share or display your password or one-time (OTP) code to anyone, including on recordings or shared screens.
- Blur or avoid displaying other officers' national ID numbers and bank account details.
- If a menu item described in this guide is missing from your account, it simply means your role does not include that module — do not attempt to access another colleague's account to see it.
- Tick “Remember me” at login only on a county computer you personally control.

4.3 Glossary of Terms

Common terms and abbreviations used throughout the system:

- **HRIS** — Human Resources Information System.
- **ESS** — Employee Self-Service.
- **PAS** — Performance Appraisal System.
- **PSB** — Public Service Board.
- **Imprest** — a cash advance issued to an officer for approved official use.
- **F&F** — Final and Full settlement; final dues owed on separation.
- **AWOL** — Absence Without Leave.
- **Establishment** — the full set of authorized posts within the county government.

- **Clearance** — the checklist (assets, imprest, ICT, records) that must be completed before an exiting officer receives final dues.
 - **Wealth Declaration** — a mandatory ethics filing declaring an officer's assets and liabilities.
-

This concludes the full walkthrough of the Homa Bay County HRIS: on the Self-Service side — profile, leave, attendance, documents, PAS, skills, training, and clearance; on the Administration side — the establishment register, leave and attendance control, imprest, PAS, Public Service Board recruitment, training, movements and exits, records and wealth compliance, reporting, and user administration. Sign in with your staff number, complete only the tasks assigned to your role, and keep employment decisions properly on the record.
